

get there.

**maximize productivity and
minimize downtime.**

RapidApp®

Projects don't always go as planned...

Sometimes, despite great management *and* the team's best efforts, a project becomes progressively late. This results in spending well beyond the original budget with growing stakeholder dissatisfaction. **Sound familiar?**

A PM's best efforts may not keep a project from becoming distressed. **Even projects led by the best project managers can fall into crisis given the right circumstances.**

CompassPoint's RapidApp® training program will teach your employees **how to identify the warning signs of a failing project** and show them **steps to quickly and efficiently recover.**

CompassPoint's unique RapidApp® training bridges the gap between learning and practical application.

That means your employees get the skills they need while **your company gets immediate results.**

We specialize in the following key areas:

- PROJECT MANAGEMENT
- LEADERSHIP DEVELOPMENT
- WORKPLACE MANAGEMENT
- PERSONNEL DEVELOPMENT
- HR MANAGEMENT
- SALES & MARKETING
